

Test Laboratory Policy

2025

Glenair UK's Test Laboratory is committed to providing competent, consistent, confidential and impartial testing services to all customers in accordance with the requirements of ISO/IEC 17025, and by doing so, maintaining its schedule of accreditation.

We ensure the efficient maintenance and calibration of our testing equipment and the confidentiality, integrity, and availability of all our information, including those that are related to the validity of results and maintenance activities. Access to this information is strictly controlled and limited to authorized personnel only to protect its confidentiality & impartiality & help in ensuring the validity of the results.

We employ skilled and competent personnel and maintain a strong focus on understanding and meeting customer requirements, from contract review to delivery of the Final Report.

Our commitment to impartiality underpins the importance of performing competent test activities and obtaining results based solely on evidence alone. We are dedicated to the continuous improvement of our activities & processes and the quality of our testing services, ensuring the security and reliability of our information assets.
