

REACH, SVHCs & RoHS

CONTENT DECLARATION concerning to: REACH Statement (EC) 19700/2006 – (253) SVHC Substances and RoHS (Restriction of Hazardous Substances)

Glenair is committed to providing its customers with products that meet the highest standard of innovation, quality, performance, Environmental and safety, and is aware of the regulatory requirements and fully committed to comply with its obligations as applicable.

We are aware that the European Chemical Agency (ECHA) publishes and updates the candidate list of Substances of Very High Concern with a frequency of at least two times per year. Further information on the candidate list is available at the following address:

<https://echa.europa.eu/candidate-list-table>.

At present 4th February 2026, 253 substances have been included in the candidate list.

We communicate with our suppliers on the presence of RoHS (10 restricted substances) and SVHC's appearing on the Candidate-list relevant to the company's products to ensure that all declaration requirements are being met and are within compliance with applicable European union regulations. If a substance listed on the Candidate List is contained in concentration above the threshold in any given product, we will proactively work with customer and provide any necessary information once the relevant data are available from supply chain.

Should you have any questions regarding compliance status of specific Glenair product, please forward your inquiry to rohs-reach@glenair.co.uk with the list of products for which you need to receive such declaration.

Doc Ref.	Rev	Date	Info Class	This statement is periodically reviewed to ensure that it remains as accurate as it can be. This compliance statement relates to Glenair UK Limited only.
